كلية التمريض
FACULTY OF NURSING

mission of the Quality Assurance Unit

To achieve excellence in all educational and research processes in alignment with the Faculty's vision and mission, thereby earning the community's confidence in its graduates, through the implementation of a comprehensive evaluation system for reviewing systems and processes, identifying strengths and weaknesses, and preparing performance reports for the purposes of development and ensuring compliance with the requirements of the National Authority for Quality Assurance and Accreditation of Education.

vision of the Quality Assurance Unit

The Quality Assurance Unit looks forward to quality standards, academic performance and management to achieve global levels of performance and achievement.

Objectives of the Quality Assurance Unit

The Quality Assurance Unit seeks to achieve the following objectives:-

- Spreading a culture of quality and embedding its practices among faculty members, teaching assistants, students, and administrative staff.
- Enhancing the quality of undergraduate and postgraduate academic programs and courses at the Faculty in line with labor market requirements, thereby contributing to academic excellence.
- Developing the research system by supporting innovation and encouraging high-quality research output.
- Strengthening the training system through specialized and continuous partytraining for faculty members, teaching assistants, and administrative staff to chip enhance their efficiency.
- Developing regular mechanisms for monitoring and evaluating academic and administrative performance to ensure continuous improvement.
- Adopting an integrated and effective data and information management system that ensures an efficient and reliable flow of information.
- Enhancing the Faculty's community role by developing integrated programs and activities that serve the local community and address its needs.
