

Activities of Alumni Unit(2025-2026)

Data Collection Activities Include:

- Designing a dedicated website for the unit on the Internet.
- Conducting the necessary communications to collect graduates' names, addresses, grades, contact information, and workplaces.
- Preparing both paper-based and electronic databases for the faculty graduates, with annual updates.

Communication with Graduates Through:

1. Inviting graduates to participate in the events and activities organized by the faculty.
2. Organizing specialized training courses for graduates according to their needs.
3. Holding an annual celebration for graduates.
4. Honoring distinguished graduates.
5. Publishing graduates' success stories.
6. Organizing scientific days for graduates at their workplaces.

Employment Opportunities Activities Include:

1. Conducting the necessary communications with the local community to provide training and employment opportunities for graduates.
2. Following up job vacancy announcements through newspapers, the Internet, and other media sources.
3. Establishing relationships with institutions and companies concerned with providing employment opportunities.
4. Publishing available job and training opportunities, including the names and addresses of institutions and all relevant information, through social media platforms and the unit's website.
5. Providing permanent or temporary job opportunities for students during their study at the faculty.
6. Organizing the annual employment forum for graduates.

Future Aspirations

- Ensuring the quality of higher education and enhancing its standards.
- Achieving alignment between higher education outcomes and labor market requirements.
- Focusing on establishing centers of excellence and activating their role.
- Supporting distinguished graduates.
- Developing a new strategy for higher education and scientific research that aligns with academic specializations and labor market needs.
- Focusing on developing graduates' skills.
