

Responsibilities of Alumni Unit (2025-2026)

Responsibilities of Alumni Unit

- Establishing and annually updating an electronic database.
- Following up graduates in the labor market and maintaining effective communication channels with them.
- Conducting research, studies, and surveys concerning labor market requirements for graduates, particularly regarding the quality, efficiency, and required skill levels of graduates.
- Assisting graduates in obtaining employment opportunities in the private sector and Arab countries.
- Developing graduates' job-search and job-retention skills through the implementation of training programs and workshops.
- Coordinating with relevant civil society organizations concerned with human resource development and the employment of the faculty graduates.
- Establishing communication channels with various employment agencies and organizations (such as labor offices, governorates, companies, factories, and research institutions) to identify their workforce needs and announce available opportunities to graduates.
